Slow and steady wins the race!

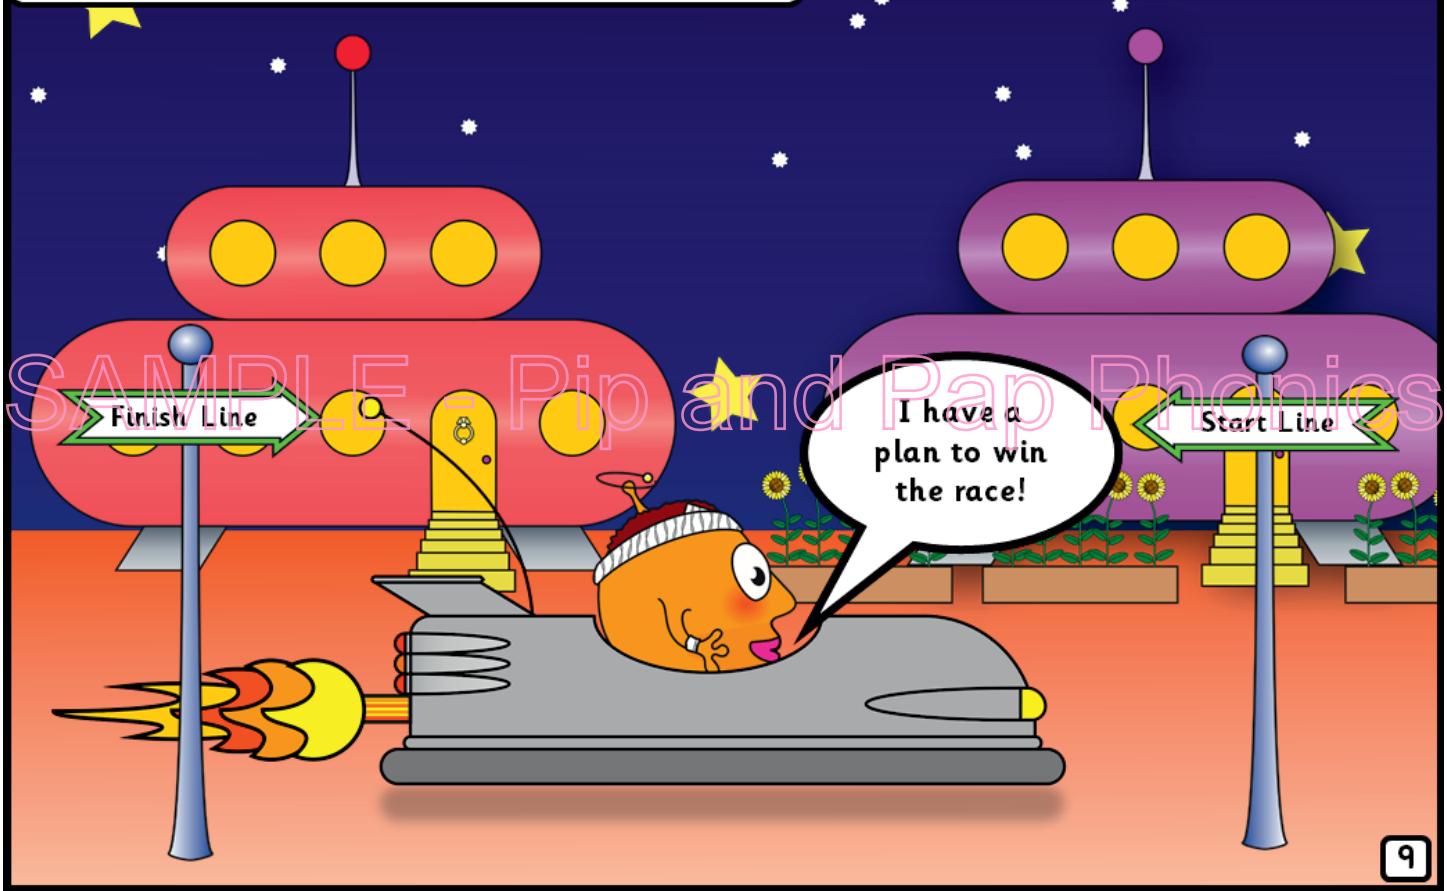

Everyone tries to catch him up!
Gran is at the back.

Pock uses his boost button. He is cheating!
Flames shoot out from the back of his car! Now Pock is in the lead!

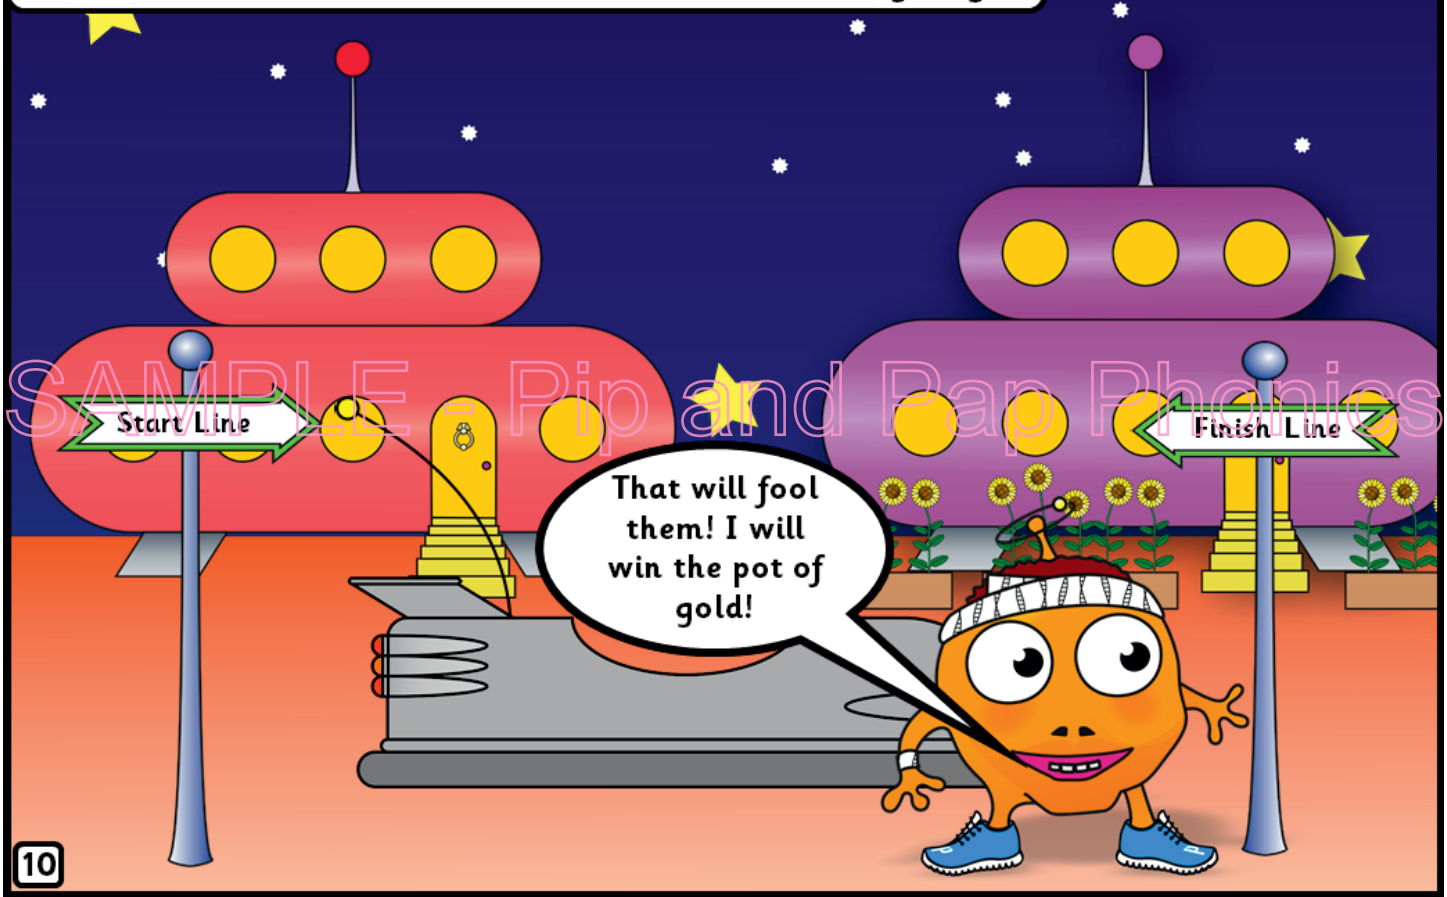

The rest of the racers try to keep up with Pock, but they cannot.

Pock is now well out in front in his grey car.
He has a sly plan to make some mischief.

Pock gets out of his car.
He switches the arrows that tell the cars which way to go!

Tisp, Pip and Pap follow one of the arrows that Pock has switched!
They get lost in a field!

The arrow was
not right!
We are lost!

Why are
we in a
field?

The rest of the cars get lost too!
There is a big boulder in the road.

All the cars get stuck behind it and honk their horns! It is chaos!

Pock speeds on.
He can see the finish line... but wait!

No! My car
has run out
of diesel!

His car has broken down!
It will not start!

I have read every
page of the rule
book. You are
out of the race.

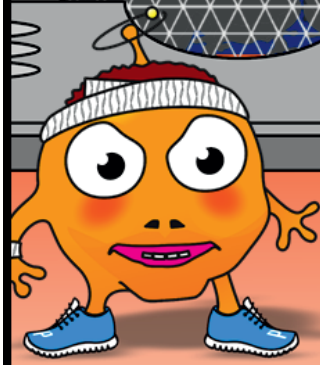

Gran speeds past Pock and over the finish line!
She is the winner of the Space Race!

The Princess hands Gran a big pot of gold!
Gran is very happy!

Parent and child activity

In this story, lots of aliens take part in a 'Space Race' in their cars! Gran is the winner! She wins a pot of gold!

Could you create some different races to take part in as a family together?
What about an egg and spoon race? Or a sack race? Perhaps you could have a wheelbarrow race!

Could you talk about the different race positions that you can finish in and how these are denoted? (e.g. First – 1st, Second – 2nd, etc.)

You earned **1** alien.
